BUTTON ASSIGNMENT

- 1 Left Button
- 2 Right Button
- 3 Scroll Wheel & Middle Click
- 4 Forward Button
- 5 Back Button

- 6 DPI Button
- 7 2.4 GHz Wireless Mode
- 8 Turn OFF
- 9 LED Indicator
- 10 USB-C Port

SPECIFICATION

Sensor.....	PixArt PAW3395
Main Button Switches.....	Huano Transparent Blue Shell Pink Dot 80m
Side Buttons Switches.....	Huano Black Shell White Dot 3m
Wheel microswitch.....	Huano Black Shell Red Dot 3m
Size.....	124.6x64.9x38,7mm
Weight.....	47g(±3)
Cable length.....	1,8m
Buttons.....	6
Max. DPI.....	26000
DPI scale.....	400-800-1600-3200 (default 800)
Max. acceleration.....	50G
Max. tracking speed.....	650 IPS
Wheel encoder.....	TTC Gold Dustproof
MCU.....	CX52850
Polling rate.....	125-1000 Hz (default 1000 Hz)
Battery type.....	Li-ion
Battery capacity.....	300mAh
Battery max. work time.....	40h

INSTRUCTIONS

- 1 Take out the 2.4 GHz USB-A receiver from the box, and plug it into the computer or into the Extension Adapter (See more in Notes below)
- 2 Turn on the mouse by flicking the power switch on the bottom of the mouse.
- 3 Wait for the hardware installation to finish

Note:

In order to avoid wireless interference, you can connect the USB-C end of the provided cable to the Extension Adapter. Next, insert the 2.4 GHz Receiver into the USB-A port of the Extension Adapter. Then plug the other end of your cable into an available USB-A port on your computer

SOFTWARE

- 1 DPI level: 400-800-1600-3200, total 4 levels DPI.
- 2 You can cycle through the DPI Modes by pressing the DPI button on the bottom of the mouse.
- 3 The mouse LED color will indicate the DPI level as below:

- 400 DPI - Red color
- 800 DPI - Green color (default)
- 1600 DPI - Blue color
- 3200 DPI - Purple color

Note:

- 1 DPI can be set by using our software, MAX DPI is 26000 DPI.
- 2 DPI LED effects can be changed through the software.

POLLING RATE

125-250-500-1000 Hz can be set by software, the default polling rate is 1000 Hz.

WIRED AND WIRELESS

- 1 Wired and wireless modes switch automatically. When the receiver is plugged into the computer without a cable connection, it will work wirelessly.
- 2 If the cable is connected to the computer and the mouse, it will automatically switch to wired mode and work in wired mode as the mouse charges.

CAUTION!

- 1 Keep the battery dry.
- 2 Avoid locating the battery terminals near metallic objects.
- 3 Do not short-circuit. Avoid placing metallic objects or spilling water into the mouse, at all times!
- 4 Use only the provided cable and a USB port on your computer to charge the mouse.

DISPOSAL INFORMATION

The crossed-out wheellie bin symbol means that you must not dispose of this product with unsorted household waste. Electrical devices can contain harmful substances that may cause environmental damage or harm to your health if not disposed of correctly. Please dispose of these products separately. As the end user, you are required by law to dispose of used electrical equipment at an official recycling point. For information about local recycling points, contact your local authority, civic amenity site, or the business where you purchased this product. By disposing of electrical products at an official recycling point, you are helping ensure that equipment is recycled correctly and professionally, and our environment is protected. Whenever possible, remove any batteries before disposing of the device. Under the law, you risk penalties if you dispose of devices and batteries illegally.

Purpose of product: Computer accessory

Connection: 1 x USB

Product material: plastic/metal/rubber

Used for: entering information into a personal computer

Please check with your local authorities for shipping regulations before shipping.
